Scoop Plates

These scoop plates make mealtimes easier for those in need. The adaptive design allows one-handed use, reducing the risk of spills and accidents. Independent Eating: This adaptive utensil helps people maintain their independence. The hi-lo adaptive bowls are easy to scoop, making it easy for people to access their food without making a mess.

This plate is designed with non-slip rubber feet to prevent slipping on tables. The small size of the plates and bowls ensures easy handling. The melamine dishes are designed to be held without pain, providing a practical solution for those with disabilities. It is made from high-quality melamine, a food-safe plastic that is scratch-proof, heat-resistant, and BPA-free and is dishwasher-safe for easy cleaning.
